The Trumbos have three full-time employees including a registered nurse and two sales people. The company also employs about 20 field staff, but Trumbo said that number varies depending on case load.

She did not provide the company's number of clients the company.

Services vary from medication set-up, transport to doctors' visits, sitter and companion care and respite care for families.

Trumbo said the company specializes in dementia and Alzheimer's care. The company also does vaccinations for National Guard and Reservists preparing to deploy for duty.
